

NEWS BULLETIN!

Blind squirrel finds acorn for copper or galvanized rods and rebar!

Introducing The New Galvan G-5 Acorn Clamp

Galvan Industries' unique new G-5 acorn makes finding the right clamp easy: the G-5 is listed for use with multiple types and sizes ground rods, as well as rebar. It's also approved for direct burial in earth and concrete. The Galvan G-5 provides simple, trouble-free connections at low cost.

With the Galvan G-5, you get:

- One acorn clamp for 1/2 and 5/8-inch ground rods
- UL Listed for both galvanized and copper. (Most competitors' acorns are not listed for galvanized rods!)
- UL Listed for #4 (1/2-inch) rebar. "Rebar" is even stamped on the clamp!
- For use with wire sizes #2 - #10 solid

Reduce inventory and SKU's! Reduce shipping errors! Order Galvan G-5 acorns today. Anything else would be just plain nuts!
